

Custom Detailed Sales Report With All Item Descriptions

This report was designed by modifying the standard Detailed Sales Report to display the following additional item information: SubDescription1, SubDescription2, SubDescription3, and ExtendedDescription.

<div>  <div> My Store #1 Custom Detailed Sales With All Item Descriptions Report Generated On 10/5/2015 <small>Created By J Bailey Company</small> </div> </div>											
								Filter: (Cashier Inactive = No			
Department	Category	Item	Description	Sub Description 1	SubDescription2	SubDescription3	ExtendedDescription	Qty Sold	Sold Price	Total Sales	State
 Dolls								4.00		\$135.00	
Dolls	Baby	218489	Spartina 449 Handbag	Handbag	Purse	Vintage	Spartina 449 Daufuskie Isl...	1.00	\$110.00	\$110.00	

If RMS has been configured to use custom Item captions (in Manager, select File Configuration > Captions, and click on the Item tab), then the column headers will automatically display those custom item captions instead of the default SubDescription names. In the example below, the retailer uses Class, Sub-Class and Line instead of SubDescription1, SubDescription2, and SubDescription3.

<div>  <div> My Store #1 Custom Detailed Sales With All Item Descriptions Report Generated On 10/5/2015 <small>Created By J Bailey Company</small> </div> </div>											
								Filter: (Cashier Inactive = No			
Department	Category	Item	Description	Class	Sub-Class	Line	ExtendedDescription	Qty Sold	Sold Price	Total Sales	State
 Dolls								4.00		\$135.00	
Dolls	Baby	218489	Spartina 449 Handbag	Handbag	Purse	Vintage	Spartina 449 Daufuskie Isl...	1.00	\$110.00	\$110.00	

The report also has all the filters and columns found in the standard Detailed Sales Report. In the example above, the user can filter for Class, Sub-Class, and Line.
