Cashier Name	Date	Number of No Sales
Alex Nayberg	9/5/2015	1.00

This is a bundle of three separate custom reports, a Refunds Report, A Voids Report, and a No Sales Report. These reports are the foundation of any loss prevention reporting with RMS. Use the Refunds Report on a daily basis to monitor total refunds, and identify disparities between different cashier refund percentages. Voids and No Sales are a vulnerability in any POS.
